Biology Transfer Evaluations

Before requesting a transfer evaluation please look up your courses on the UO Transfer Credit Equivalencies web site at

http://registrar.uoregon.edu/tce/

If your BIOLOGY courses have not been evaluated, or you feel the evaluation is not accurate please email Jana Prikryl at:

jprikryl@uoregon.edu

It will expedite the process if the subject line of your email reads as follows: Subject: Transfer eval, your name, school you transferred from

Please include the following information in your email:
- Name and Student Number
- Prior institution (college/university)
- Indicate if prior institution courses are semester or quarter length
- Biology courses (number and title) you would like evaluated
- Link to web site that contains course descriptions for these courses
  (If you are an international student and this information is not available online in English, please provide an official translated document that contains the course description, including the information below)

Course descriptions should also include information on the following:
- Is this course required for biology majors (relevant for lower division courses)?
- Does it have a lab component?
- How many hours of lab and lecture per week?
- What are the prerequisites/co - requisites for this course?

☐ In some cases we may also request a copy of the course syllabus and a copy of the final exam, or final exam topic review sheet. Please be prepared to provide this information.

For evaluations of other College of Arts & Sciences courses contact:

Chemistry: Michael Koscho koscho@uoregon.edu
