

My PLE is a visual narrative of how I learn. I have included my technological devices, references to art and family and home life. The whole PLE is shown as photographs on a wall, symbolizing the importance photography within my home environment. Technology includes Google, gmail, a digital camera, iPod, iPhone, and Macbook. I also show a tv with dvds and my favorite tv shows for they are always on in the background while I learn. I have placed books, a dictionary, jstor, and the UO library within the PLE to signify my use of books within research and personal learning. My artwork is also an important part of my learning environment, and I have shown paint, paint brushes, and a color wheel. My home life also impacts me and my learning – and I have placed m&ms, tea, Waldo in *Where's Waldo* and my dogs within the PLE.
