

Winter Workshops Offerings to keep you warm

HANDMADE PAPER TECHNIQUES
SATURDAY JAN 3
1 - 6PM
\$65

Learn the time-honored tradition of hand papermaking for your artwork or stationary.

Students will learn the basics of making paper with pulp and a deckle, drying techniques and embellishing with color, stencils, and natural materials.

BEGINNING LETTERPRESS
SATURDAYS JAN 1 - FEB 3
10 - 4PM
\$300

Letterpress is the traditional method of pressing inked words and images, cast in metal or polymer, or cut from wood, directly into paper. The letter forms leave their mark, adding a unique and sensuous texture to the page.

Learn the basics of letterpress printing – composing type, mixing ink, press set-up and printing on the Chandler & Price Platen and Vandercook presses. At the end of the month, you will have printed 2 broadsides and a set of greeting cards.

SCULPTURAL COLLAGE
SUNDAY FEB 2 & 9
12 - 6PM
\$45

This workshop focuses on re-used and found objects. Use found media like books, cassette tapes and maps and alter them to become new works of art. Consider the original intentions of the material and the meanings and assumptions of the material and its uses to transform them into something new, either functional, pictorial or purely sculptural.

COPTIC BOOK-BINDING
SUNDAY MAR 14
3 - 6PM
\$40

Chain-stitch or coptic bindings are both functional and beautiful – because there is no hard spine, the book can lay completely flat, making it easier to write and draw in.

All materials are provided and you will leave with your own handmade sketchbook and the knowledge to make more – perfect for personal use or for gifts.

POP-UP BOOKS
SUNDAY FEB 2
3 - 6PM
\$45

Participants in this workshop will make a wide range of movable book structures that can be integrated into pictorial themes such as haunted houses, fairytale castles, and pirate ships.
