Posterior View

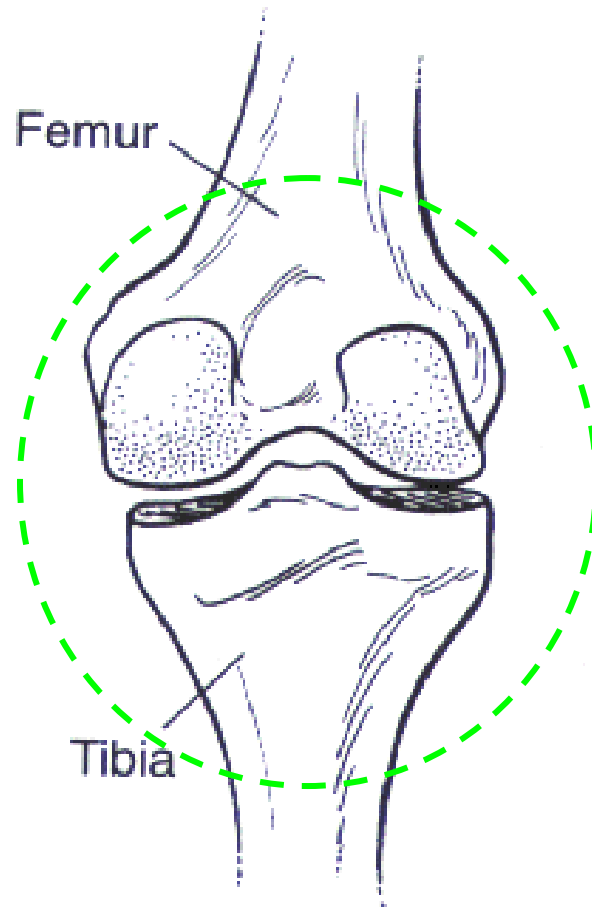

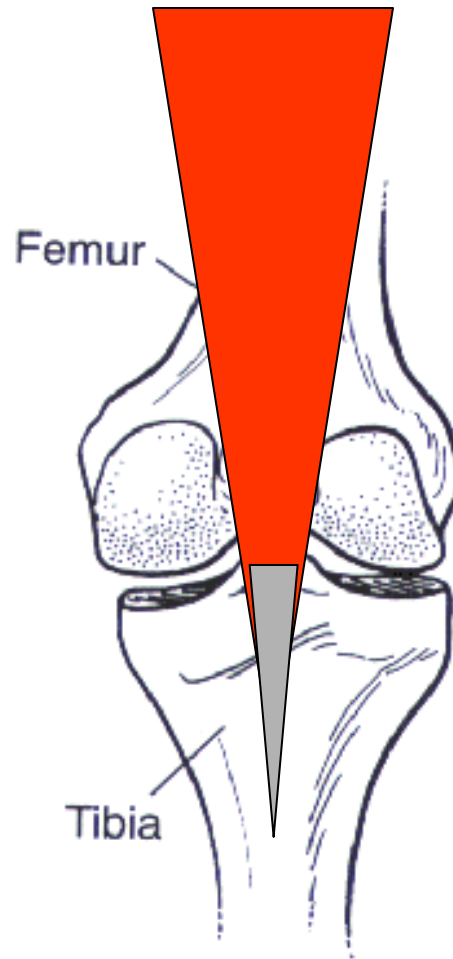

Superficial vs. Deep?

Joint. Simply a Place Where 2 Bones Meet!

Muscles: Cross Joints by Way of Tendons

Tendons: Staple Muscles to Bones!

Ligaments: Connect Bone to Bone!

Cartilage: Cushion Between Bones!

Circumduction

Rotation
(about long axis)

Supination

Pronation

Mystery Structure-Function Day

1. Your group should have 4-6 people at your 1st station.
2. Answer as many questions as possible with your group.
3. Collaborate, collaborate, collaborate!
4. Written references/resources are fine, but not instructors.
5. Please, no photography, images or copies of any kind.

...Above all have fun!

Group Rotations

1. Neuroendocrine

2. Development

5. Muscular & Skeletal

4. GI/Digestive

3. Cardiorespiratory
