

Knight Campus – Faculty Introductions

Friday, November 13, 2020 @ 2:30 pm on Zoom*

Marian Hettiaratchi

<https://hettiaratchi.uoregon.edu/>

Assistant Professor, Knight Campus

Faculty Affiliate, Department of Chemistry and Biochemistry

Hettiaratchi's lab combines expertise in chemical and biomedical engineering to design biomaterials to control protein delivery to injured tissues.

Tim Gardner

<https://gardnerlab.uoregon.edu>

Associate Professor, Knight Campus

DeArmond Chair in Neuro-Engineering

Faculty Affiliate, Institute of Neuroscience and Department of Physics

Gardner's research focuses on the development of 3D printing and microfabrication methods for implantable neural interfaces.

Keat Ghee Ong

<https://onglab.uoregon.edu/>

Professor, Knight Campus

Faculty Affiliate, Dept. of Physics and Dept. of Chemistry and Biochemistry

Ong's research centers around implantable sensors, wireless sensors, electronic devices, and magneto-elastic materials.
