Requirements

Examine how and why people transform their surroundings into specific places like cities, national parks, and sacred sites.

Geog 142: Human Geography

This course will: 
• Expose you to conceptual categories for understanding how and why the world changes around us;  
• Demonstrate the ways that race, class, gender, ethnicity and place are implicated in globalization;  
• Help you recognize and interpret the emergence and influence of economic globalization in different places.
