

### 3/5 JSMAC Minutes

Invite everyone you can to our opening

Sarah has made it a facebook event now

Sarah is also distributing flyers to give out throughout campus

The photos are done but they are no consistent because the light changed so rapidly when we took them

Maybe retake them over Spring break

Still give out the old ones, but retake new ones

Either next weekend or the weekend after

This is our last meeting of the term

Next week during this time between 12 and 2 we have our UO Stress Less event

We still need people to table for this

Times between 2 and 7

Stacey can do 2-4

Andrea can do 4-7

Packet making party at Sarah's house at 4:00

If you can't be there at 4, then just come when you can

We are going to do 120-140 packets

We are going to make tiny journals

Food, origami, etc.

Stacey – make suckers with sayings on them to get people to come

Address and phone number are up on the facebook group

Stress Less

Stacey is leading a creative journaling exercise

Monday

They will be installing the art show

It will be treated as a workshop on how to hang art in a gallery space for people in JSMAC

It starts at 10:00

We can leave when we need to leave

Enter through the back of JSMAC and get your badge

We do not have an intro panel

Opening reception is on Wednesday from 5:30 to 7:30

At 6:00 Sarah will do an introduction

Two slam poets are going to come to the opening for 15 minutes to do poems that go with the theme of social justice/propaganda

Sarah has more posters and flyers in the back for people who want more posters and flyers

Emma designed a flyer for stress less art studio

Really busy week coming up – things coming up Sunday-Thursday

Next Term:

May 17<sup>th</sup> – American Pi Comes down

May 27<sup>th</sup> – second student exhibition goes up

Try to integrate the next slam poet event with this

Themes for the new show:

Spirit Animals with ???

## Environmentalism?

Let's marry spirit animals with another theme

Social Responsibility

Spirit Animal instinct with mental health awareness

We could tie this into environment as well

Our identity in nature

Spirit animal is that identity tied in with nature

We are all connected

Man vs self and Man vs nature

Self-preservation through nature

3 Words – we need to think on this

Nature

Identity

Projection

Embodiment

Sarah will make a google doc and send it out about the new exhibition

Update or fill out the doodle for next term as soon as possible so we can schedule meetings for next term

Sarah will send out the right time over spring break

We will be meeting week one and hit the ground running

Hopefully we will have the theme for the second show picked out

The "War on Ignorance" artist doesn't want to do it digitally

He wants them in their own print form

He already has them framed

We will put what we can up

Sarah has the results of who will be shown at the student art show

Feedback from this term

Stacey – coordinate smaller teams to get things done instead of big group meetings

Sarah will try to find a way to fit things in

Stacey doesn't want to cut out the once a week, but add smaller meetings/committees

Can try and facilitate this at the beginning of next term

Bea – Does JSMAC have anything to do with the Rick Bartow show?

Just volunteer coordinating

We can try to but JSMA does their programming without JSMAC in mind

Creating some kind of programming that breaks down the walls between students and professionals

Can go on the tour, lectures, panels, etc.

Sarah – good thought but it might be something that the museum would be wary about letting us do – might propose this for next year

Stacey – more actively recruiting undergraduates

Tea time

Sarah – this might be more worth the funding in the fall

Stacey – could we do this each term?

The possibility of having Townsen's sponsor this

In the springtime doing quick presentations in undergraduate classes  
Bea can do this with her GTF position
