The titles for Research, Reading & Conference, Seminar, and Prac are limited to 17 characters & spaces. The title you enter must be universally understood to be acceptable to the Registrar’s Office. So ToM, WM, ERP, etc., or scrunching everything together, doesn’t work. Please choose one or two very short words that describe your work. This will show up on your transcript.

For Research, “Res” will automatically be the first part of your title (plus the above mentioned 17 characters and spaces). “Read” for Reading & Conference; “Sem” for the various seminars; and “Prac” for Practicum.

Course	CRN	Short Title	Type in Faculty Name
