

# SAIL

SUMMER ACADEMY  
TO INSPIRE LEARNING

## What's SAIL all about?

SAIL is an innovative pipeline program that helps local eighth through twelfth graders prepare for college.

SAIL offers **free** one-week summer camps, where students learn about various subjects from distinguished University of Oregon faculty members through fun social and interactive activities. Each summer, returning students choose a new academic subject. SAIL camps include sessions on the college admissions process, scholarship availability, and the financial aid process.

During the school year, SAIL offers mentoring—administered by UO college students—to eligible students in local high schools who are navigating the college admissions process.
